- Canada: ₹3,529,229

- **Top-Selling Products:**

- Paseo (especially Medium and Low Discount Band)
- Montana and Velo (strong performance in Medium Band)

- **Discount Impact:**

- Discounts are significant in driving sales for some products but impact profit margins.

- **Profit Trend:**

- Profit grows steadily in some months, but there is volatility in months like November and December.

- **Cost-to-Sales Ratio:**

- Indicates the need to control COGS to boost profitability.

Conclusion

- The dashboard offers a clear view of sales, profit, and discount impact across countries and products.

Recommendations

- Focus on products like Paseo, Montana, and Velo with higher returns.
- Optimize discount strategies to avoid margin loss.
- Increase focus on top-performing regions (USA, Canada, France).
- Monitor months like November–December where performance fluctuates.
